

Praise the Lord!

Psalm 150

- ¹ Praise the LORD! Praise God in his sanctuary!
Praise God in his fortress, the sky!
- ² Praise God in his mighty acts!
Praise God as suits his incredible greatness!
- ³ Praise God with the blast
of the ram's horn! Praise God with lute and lyre!
- ⁴ Praise God with drum and dance! Praise God with strings and pipe!
- ⁵ Praise God with loud cymbals! Praise God with clashing cymbals!
- ⁶ Let every living thing praise the LORD! Praise the LORD! ¹

On Sunday, September 6 at 9:30 we will be counting down the top 10 hymns of Jonesville UMC! Psalm 150 tells us to praise God with all the noisy instruments as well as the quieter ones. So whether you have fine-tuned vocal chords or you are better at solos (singing so low no one can hear you), come and let's praise God together.

I invite you to guess what hymns will make the top ten list for the church and see if you can correctly guess their order:

- | | |
|-----|----|
| 10. | 5. |
| 9. | 4. |
| 8. | 3. |
| 7. | 2. |
| 6. | 1. |

Mission of the Month for September

Fresh Water Friends

We were introduced to Fresh Water Friends last year and Audra Wood, Executive Director came to JUMC and shared in her sermon how important and crucial it is for communities around the world living in remote villages to have clean water and how Fresh Water Friends can make it a possibility. They are a 501(c)3 nonprofit public charity and celebrating their 10th year Anniversary this month! Their global mission is to share the love of Jesus Christ by providing clean water to communities in need. They work with local partners to build wells, provide water delivery and filtration, and find creative solutions to water problems on a village-by-village basis in many countries. FWF's vision is to share the joy of clean water and the hope of living water with every thirsty person – until no one is left unreached.

If the villages are to get clean water and in most areas the water they have access to is not truly clean and children there die of illnesses associated with unclean drinking water. In most situations many young women walk 3 miles one way to carry water weighing up to 30 pounds and this may mean that it is impossible to go to school because of the time it takes them to bring the water back to their villages.

Last year JUMC provided the means through your monetary donations of \$1,700 given to FWFs which was used to build a borewell in a village. We received a letter thanking each of you from the village spokesperson via FWFs:

"Thanks to this generous gift from Jonesville United Methodist Church, the community now has a steady source of clean water. The installation of the borewell ensures better access to drinking water, supports agricultural activities, and reduces the burden on families, particularly women and children, who previously struggled to fetch water from distant sources. This intervention enhances health and hygiene and strengthens the economic and social well-being in our small village. On behalf of the entire village community, we would like to express our deepest gratitude and sincere thanks for your generous support in providing a borewell for our village. This borewell has become a great blessing to all of us. Previously we faced many difficulties in accessing clean and sufficient water for our daily needs. Women, children, and elderly people had to walk long distances to fetch water, often facing hardship and health challenges. But now through your kindness and compassion we have easy access to clean and safe drinking water."

Micah 6:8 There will be an opportunity, once again to watch 1946 the movie, this fall. It is a movie that teaches how one mistranslation of the bible was used by many in power to divide, much to the detriment of the LGBTQ+ community, and how much of it still persists today.
